Stylish extras for homeowners...better value for builders

Stunning Looks, Outstanding Performance

Fmi's grand Georgian models set new standards for wood-burning beauty, scale, quality, and performance, but our new firebrick lined models featuring Mosaic Masonry™ technology revolutionized the industry. These award-winning Georgians offer true, luxurious masonry at a fraction of the cost and installation time of site-built... with even more beautiful new features homeowners will love!

Homeowner Highlights:

- Commanding Presence** — The absence of any interior sheet metal is the foundation for a true masonry fireplace. Georgians boast enormous opening dimensions and clean face design with no visible smoke shelf or other steel components
- Masonry Firebrick liner** — The Mosaic Masonry™ firebrick lining system positions Fmi's Grand Masters Series as the industry's only real masonry, factory built and UL 127 certified fireplaces! The beautiful kiln-fired clay firebrick lining kit is indistinguishable from site-built masonry, and is available in both traditional Warm Red and Ivory.
- Efficiency and performance**—Georgians come fully insulated standard, and vent with our 12" double wall pipe for trouble-free venting, and operation with maximum radiant heat output in any climate or condition.

Builder Benefits:

- Masonry Firebrick Liner**— The patented Mosaic Masonry™ firebrick kit is a complete masonry lining system of pre-engineered, steel reinforced, kiln fired clay firebrick walls that install as easily as typical factory-built concrete liners, but finish just like site-built masonry. They're even factory grouted to minimize site installation time.
- Reliability and Versatility**—On top of the authentic, site-built masonry appearance, the Georgian is a UL 127 tested and certified fireplace. This means flexible and reliable installation options and guaranteed performance.
- Unparalleled value**—Hand crafted masonry finished fireplace at a fraction of the cost and installation time of site-built; with factory controlled quality, and performance.

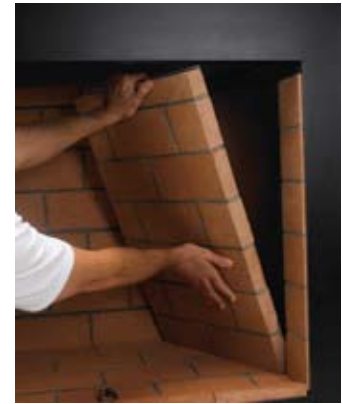

THE GRAND MASTERS SERIES

Masonry Georgians are available in 36", 42" and 50" wide openings with Full 30" clear opening height.

Georgian
Masonry
